SKILLS

- Programming Languages: Java 17, Kotlin
- Frameworks and Architecture: Spring Boot, Microservices, Restful APIs
- Frontend: React, HTML, CSS
- Cloud Platforms: Google Cloud Platform
- Containerisation and orchestration: Docker, GKE, Openshift
- DevOps and CI/CD: Jenkins, GitLab
- Databases: MongoDB (NoSQL), Relational Databases (SQL)
- Tools and Monitoring: Prometheus, Grafana, Kibana, Dynatrace, JUnit (Testing), Maven/Gradle (Build Tools), Git
- Methodologies: Agile Development, System Design, and Capacity Planning

CERTIFICATIONS

GCP : Professional Cloud Architect
GCP: Associate Cloud Engineer

Technical Lead with a strong background in Microservices, API design, and DevOps practices (CI/CD, Docker, Kubernetes). Skilled in orchestrating the delivery of complex backend systems by leading Agile teams, conducting code reviews, and enforcing rigorous quality standards. Demonstrated ability to bridge the gap between technical and non-technical stakeholders, ensuring clear communication and the successful execution of project roadmaps.

EXPERIENCE

August 2023 - October 2025
Technical Lead ***Yorkshire Building Society***, Leeds

- Guided and mentored a team of eight engineers, fostering best practices in coding, testing, and system design, while collaborating cross-functionally with architects.
- Led the end-to-end lifecycle of critical backend services using Java 17 and Spring Boot, translating high-level architectural requirements into scalable, low-level designs.
- Managed deployments and containerisation on OpenShift Kubernetes using Docker, while utilising Git and CI/CD pipelines for streamlined delivery.
- Ensured system reliability by leveraging Grafana, Kibana and Dynatrace for proactive performance monitoring, troubleshooting, and optimizing the microservices ecosystem.

October 2021 - April 2023
Senior Software Engineer ***Wipro Limited***, Leeds, West Yorkshire

- Led a team of six developers in engineering scalable backend solutions using Java, Spring Boot, and Microservices, ensuring high performance and reliability.
- Collaborated with stakeholders to define project scope and requirements, translating business needs into robust technical specifications and APIs.
- Mentored junior staff and conducted code reviews, resolving complex technical issues, and enforcing strict coding standards throughout the development lifecycle.

January 2019 - October 2021
Senior Software Engineer ***Wipro Limited***, Hyderabad, India

- Developed scalable microservices using Java and Spring Boot, utilizing RESTful APIs for frontend integration and deploying on GCP Kubernetes Engine.
- Designed efficient database structures using SQL and MongoDB while collaborating with UI/UX teams to deliver seamless user interfaces.
- Ensured software reliability through rigorous unit/integration testing and active participation in Agile development cycles (sprints, stand-ups).

August 2016 - February 2021
Technical Lead ***Oottru Technologies Ltd***, Bangalore, India

- **L**ed a team of six developers and testers, providing strategic guidance, mentorship, and continuous performance feedback.
- Ensured code quality by conducting rigorous code reviews and enforcing development standards across the team.
- Facilitated technical onboarding by documenting detailed specifications and delivering training programmes for junior staff.

February 2012 - August 2016
Senior Systems Engineer ***Infosys Ltd***, Mysore, India
Worked for a client that is a leading European bank, working with a team to develop an online tool for daily report and extracts generation.

EDUCATION

05/2011
Bachelor of Technology Computer Science and Engineering
BBDIT, UPTU, Ghaziabad, India
